Toshiba recommends Windows Vista® Business

Discover the Toshiba Portégé R600 – the world's lightest, fully-featured laptop*. The durable magnesium body enables an incredibly thin and light design. While up to 5GB of memory, an optional 128GB solid state drive and up to 8 hours of battery life, combined with a 12.1" screen and expansive connectivity options, ensure heavyweight performance.

> TOSHIBA EASYGUARD PROTECTION

The Portégé R600 is fully equipped with Toshiba EasyGuard – advanced security, protection, connectivity and management features – delivering you a reliable and secure computing experience.

> INNOVATION HIGHLIGHTS

Introducing the most elite Toshiba laptop model. The Portégé R600 is designed to perfectly meet the demands of today's business leaders:

- ▶ The lightest fully-equipped laptop in the world – weighing from 779g
- ▶ Magnesium chassis – both light and tough in one
- ▶ Thin profile – including an ultra-slim 7mm optical disk drive
- ▶ Outstanding screen quality – providing sharp images and wide viewing angles, both indoors and outdoors
- ▶ Complete connectivity solution – speedy communication features available wherever you are
- ▶ Advanced EasyGuard features – Security, Protection, Connectivity and Manageability
- ▶ Easy docking

> KEY FEATURES

- ▶ Intel® Centrino2® Processor Technology featuring Intel® Core™2 Duo Processor
- ▶ Genuine Windows® Vista Business
- ▶ 12.1" WXGA LED Backlight display, 1280 x 800
- ▶ Transflective feature to adapt the laptop's backlight – ensuring great visibility, whatever the conditions
- ▶ The choice between a high-storage capacity 160GB hard disk drive or a light and speedy 128GB solid state drive
- ▶ Hard disk drive protection with 3D accelerometer
- ▶ Extended battery life – up to 8 hours (Mobile Mark™ 2007)
- ▶ 0.3 Megapixel web camera for business conferencing
- ▶ Fingerprint Reader
- ▶ 100cc spill-resistant keyboard and drop tested up to 75cm from four sides
- ▶ Extended connectivity – Gigabit Ethernet LAN, Wireless LAN 802.11, Bluetooth, Mobile Broadband WWAN/3G
- ▶ ENERGY STAR 4.0 compliant

▶ Fingerprint Reader

▶ The lightest fully featured laptop in the world*

▶ 0.3 Megapixel web camera

▶ Easy docking

▶ USB Sleep-and-Charge/eSATA port

* Weight starting at 779g depending on configuration and local availability.

CPU performance may vary from specifications under certain conditions such as the use of battery instead of AC power, certain external peripherals, certain multimedia applications or network connections, complex modeling software and in areas with low air pressure at high altitude (1,000 metres above sea level) and/or certain temperatures. CPU performance may also vary from specifications due to design configuration. Under some conditions, your computer may automatically shut down as a normal protective measure. To avoid risk of lost data, please make periodic backup copies. For optimum performance, use your computer only under recommended conditions. Please read detailed restrictions in the product resource guide, visit the Toshiba web site: computers.toshiba-europe.com and/or contact Toshiba Technical Support. • Graphics processor unit (GPU) performance may vary depending on product model, design configuration, applications, power management settings and features utilized. • Part of the main system memory may be used by the graphics system and therefore reduce the amount of main system memory available. • For PCs configured with 4 GB of system memory, the full system memory space for computing activities will be considerably less and will vary by model and system configuration. • For information about upgrading your system memory please refer to the user manual or contact your local Toshiba service provider. • One GB means one billion bytes; accessible capacity may be less. • Wired and wireless communication capabilities to be applied in countries where approved. • Battery life may vary depending on applications, power management settings and features utilized. Recharge time varies depending on usage. Battery may not charge while computer is consuming full power. After a period of time, the battery will lose its ability to perform at maximum capacity and will need to be replaced. This is normal for all batteries. To purchase a new battery pack, see your accessories information that shipped with your computer or visit the Toshiba web site at computers.toshiba-europe.com. • Small bright dots may appear on your TFT display when you turn on your PC. Your display contains an extremely large number of thin-film transistors (TFT) and is manufactured using high-precision technology. Any small bright dots that may appear on your display are an intrinsic characteristic of the TFT manufacturing technology. • Weight may vary depending on product configuration, vendor components, manufacturing variability and options selected. • Please check your system specifications to ensure optimal results. • Certain notebook chassis are designed to accommodate all possible configurations for an entire product series. Your selected model may not have all the features and specifications corresponding to all of the icons or switches shown on the notebook chassis.
