HP Color LaserJet CP3520 Printer series

WHAT DO YOU HAVE TO SAY?

Produce professional-quality collaterals, fast and effectively

Create eye-catching colour business communications and marketing collaterals in-house with this easy-to-use, high-performing printer. Get print-shop quality printing with fast print speeds for both colour and black-and-white with Instant-on Technology. HP's innovative colour technologies—the new generation HP ColorSphere toner and HP ImageREt 3600 technology—work together to create professional quality results for all of your business needs.

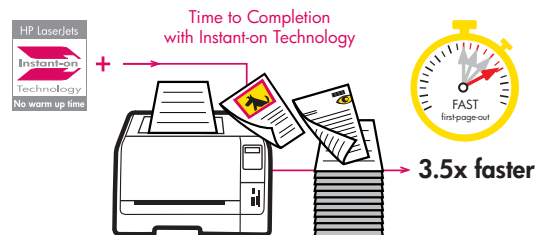

Enhance work team productivity with fast print speeds

Quickly produce business documents and marketing materials at fast print speeds of up to 30 ppm A4 in black and colour.¹

30 ppm A4

Start printing fast and finish sooner with Instant-on Technology. Instant-on Technology uses cutting-edge fuser technology to enable print jobs to begin quickly from low power mode. In addition to fast first-page-out, Time To Completion for printing of typical office documents can be nearly 3.5 times faster.²

Produce professional-quality colour documents that make an impact

Get outstanding print-shop quality printing. The new generation HP ColorSphere toner works together with HP ImageREt 3600 to deliver consistent, high-quality results with sharp images and crisp text.

New generation HP ColorSphere toner

The new and improved HP ColorSphere toner delivers exceptional print quality consistently from one cartridge to the next—with more colour intensity, a broader range of colours, and 30%¹ more gloss—so you get vibrant, realistic images with more subtle shadows and smoother colour gradations.

Professional colour for true-to-life photos and images even on plain paper.

30% higher gloss levels³ for more vibrant and realistic images.

17% wider colour gamut³ for truer flesh tones, shadow details and smoother gradations.

Faster printing without compromising image quality.

Shake-free cartridge design distributes liquid-like toner evenly for smoother print quality.

ColorSphere
HP TONERS

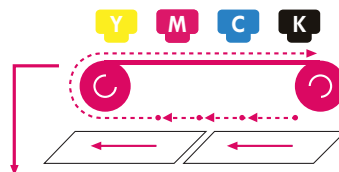

¹ Exact speed varies depending on system configuration, software application, driver and document complexity.

² Instant-on Technology uses cutting-edge fuser technology to produce the first page faster when a printer is coming out of low power mode so your print job is done sooner. An InfoTrends study shows the typical office print job is three to five pages long: www.infotrends.com/public/Content/Presentations/officeprinteruse.pdf. Time To Completion of a typical office print job tested on HP and select competing products. Actual results may vary.

Precise and reliable performance

In-line printing technology

HP's third-generation in-line printing technology brings reliable performance and highly accurate colour registration to selected HP Color LaserJet printers. While conventional printers require four separate steps to print a document, in-line printing technology prints in one fast, efficient step, resulting in superior print quality and exceptionally quiet operation.

Four individual cartridges are aligned in a horizontal position in the printer. Each colour is applied directly and fused to paper in a single pass through the printer.

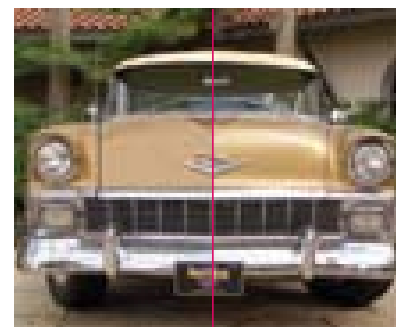

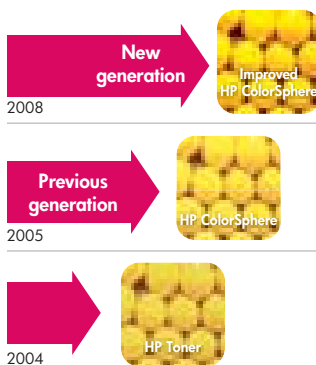

Wider colour gamut, higher gloss levels than before

The new toner formulation in HP ColorSphere toner features chemically-grown, spherical toner particles that are uniform in size to enable precise placement, reliable, smooth flow of toner onto the page and consistent performance. This results in smooth colour transitions and increased colour consistency.

A broader range of more intense colours means clearer details, sharper text, and more lifelike flesh tones, shading and gradations, while higher levels of gloss result in more vibrant, eye-catching colours.

17% wider colour gamut over previous generation³

30% higher gloss over previous generation³

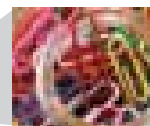

Previous generation New generation

HP ImageREt 3600 technology

HP ImageREt 3600 is a suite of innovative colour technologies built into the device to ensure the best colour results without making trade-offs between print quality and performance. It works through a multi-level printing process that controls colour by combining up to four colours within a single dot and by varying the amount of toner in a given area.

HP ImageREt 3600

Up to
600 x 600 dpi

HP ImageREt 3600 technology

Get the best possible output for all your printed documents, right out of the box, with HP ImageREt 3600.

³ Gloss based on a comparison of images printed with HP Color LaserJet 3800 Printer series and HP Color LaserJet CP3525 Printer (2008) printed on HP Color Laser Glossy Brochure Paper 160gsm. Improve marketing effectiveness with professional collaterals produced right in the office

With the HP Color LaserJet CP3520 Printer series, you get more than a high-quality device for general business printing. Take advantage of print-shop quality output—with the new generation HP ColorSphere toner, reliable all-in-one cartridge design, and a full line of professional HP papers—and easy-to-use tools to create professional-quality business documents and stunning marketing materials, right in the office, and save time and money.

Reach your customers with the right messages, at the right time

Equip your business with the capability and flexibility to create your own marketing materials right in the office, and reach your customers with the right messages, at the right time. Get more control—customise your messages, and print what you need, when you need it—and enjoy new levels of affordability and quality.

1. HP In-house Marketing Starter Kit

The HP In-house Marketing Starter Kit lets you conveniently create high-impact marketing collaterals and start doing so right away. It includes:

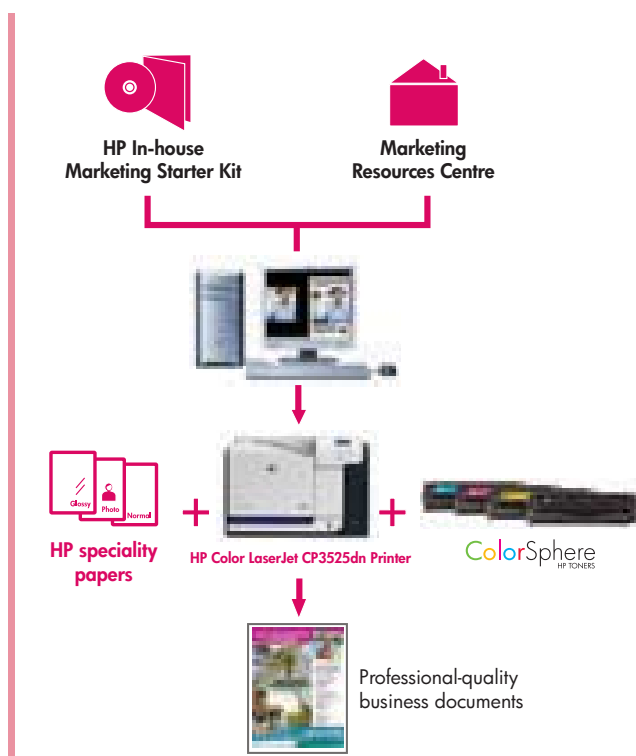

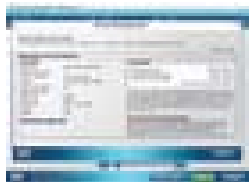

- Over 100 agency-quality, fully customisable design templates
- HP Business Communications Paper samples
- Discounts on iStockphoto images and logo creation with Logoworks by HP collaterals

2. **Marketing Resources Centre**—access professionally designed templates, free online training, and links to other design resources through this resource-rich Web portal.

3. **HP Print View Software**—proof documents and see various print settings applied to your document before you print, and save money and prevent waste on unnecessary test drafts.

4. **HP Print Cost Estimator**—compare the cost of printing a document in-house using HP's Color LaserJet products to using a print shop, and estimate how much you can save.

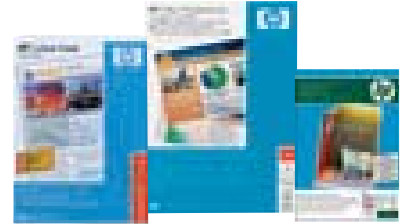

For more information, go to www.hp.com/apac/colour

Superior print quality over a broad suite of media

Get consistent, excellent print quality on a variety of paper finishes and weights with HP's full line of everyday and specialty papers which are designed with the new generation HP ColorSphere toner and the printer to deliver impressive results, page after page.

Reliable, consistent print results

All-in-one print cartridges

HP Color LaserJet all-in-one print cartridges with HP ColorSphere toner are a crucial component of the printing system. Print cartridges are designed for simplicity, incorporating the toner and imaging drum in one supply. Comprising up to 70% of the imaging system, you refresh the printer every time a cartridge is replaced, ensuring consistent results print after print.

ColorSphere
HP TONERS

HP Smart printing technology

HP Smart Printing supplies are designed with intuitive features and built-in intelligence that enables interactive communication between cartridge and printer to optimise output quality. These features include monitoring of print jobs and supplies levels to help minimise user interaction and enhance office productivity.

Receive convenient supplies alerts when supplies are low and avoid down time, with HP's proprietary Smart printing technology.

Discover the many benefits of in-house printing with HP

Save time – You no longer need to work around the print shop's schedule. Nor do you need to spend time going to the print shop to drop off and pick up your print jobs.

Save money – By using your own HP Color LaserJet for smaller print jobs instead of sending them to an external print shop, you can often save money. You can produce professional-quality colour printouts in the quantities you need.

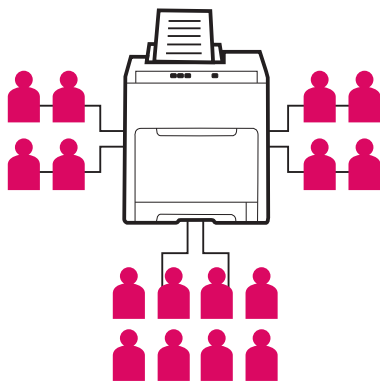

Enjoy flexibility – Have control over the schedule, the quantity and more importantly, the quality of printed documents. You are also able to customise documents and have the flexibility of making last-minute changes.

Maximise your investment with productive, expandable features

The HP Color LaserJet CP3520 Printer series is designed to boost workgroup productivity. Enjoy fast colour and black printing on one device, and productive tools to help manage resources more efficiently and securely. Flexible, expandable high-performance features ensure that the printer will meet your growing needs.

Reliable networking and enhanced security¹

Easily share the printer among multiple users, and get enhanced security with the HP JetDirect Gigabit Ethernet embedded print server for connecting to a 10/100/1000 Base-TX network. The HP Jetdirect 635n IPv6/IPSec print server provides an enterprise-class, high-performance networking environment for reliable, secure and efficient sharing. HP's high-performance secure EIO hard disk provides advanced security features to protect sensitive information without impacting device performance. A Hi-Speed USB 2.0 port enables easy alternative connection to the printer.

Easily share the printer across multiple users with **HP Jetdirect Gigabit Ethernet print server**, including IPv6 support and new security features

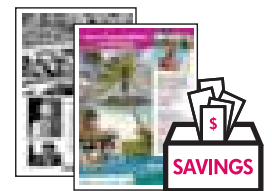

Expandable printer capabilities

With user expandable memory up to 1GB, an open EIO slot and optional third-party solutions, you can expand your printer capabilities as your business needs change.

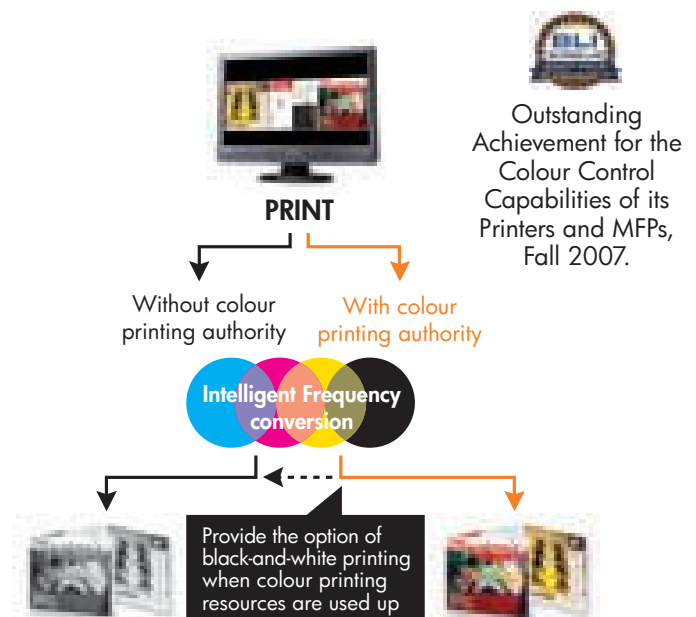

Versatile for all business printing

This HP printer is designed to maximise your investment. With the HP Color LaserJet CP3520 Printer series, you can get black prints for the same cost as on a black-and-white HP LaserJet²—enabling general office effectiveness, while also allowing you to print in colour! Choose an optional high-capacity print cartridge for even more value.

Manage colour usage

With HP's award-winning³ Color Access Control technology, easily control who can print in colour and how much, and keep your colour printing expenses under control. Usage reports allow tracking of colour usage by job, user and device, and allocation of costs to individual departments.

¹ Features vary by model. For details, see "Series at a glance" section.

² When printing using HP Color LaserJet Black Print Cartridge (CE250X).

³ Buyer's Lab gave HP an "Outstanding Achievement" award in December 2007 for the extensive colour control features included with its laser printers and multifunction products.

Flexible paper handling¹

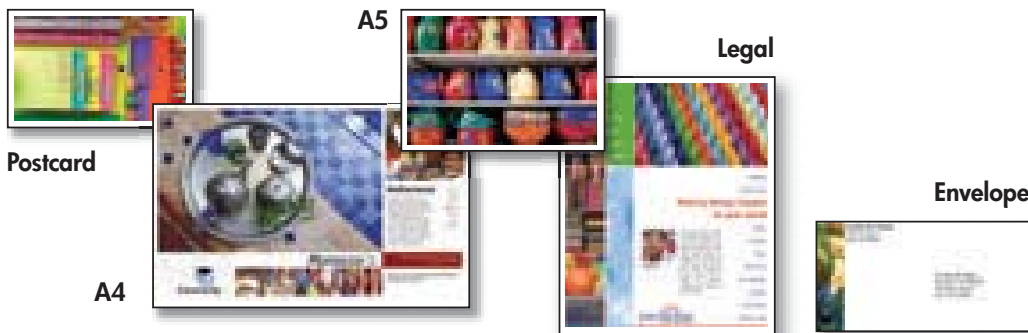

Accommodate your work team's varying needs and restock paper less frequently with expandable paper handling capabilities.

850-sheet total input capacity

The HP Color LaserJet CP3520 Printer series comes with a 100-sheet multipurpose input tray for specialty papers, an adjustable 250-sheet input tray for standard paper, and an additional 500-sheet input tray which increases the printer's maximum input to 850 sheets, so you can manage high-volume printing efficiently.

Print a wide variety of high-quality documents

Get the look and feel you need to make the right impression. Input trays 1 and 2 provide broad media support, including sizes from 4 x 6 inches to 8.5 x 14 inches (98.4 x 148 mm to 216 x 356 mm) and weights from 60 g/m² to 220 g/m² (16 to 59 lb bond).

Versatile paper handling for a variety of business needs.

Added media flexibility

Get support for glossy, heavy paper up to 220 g/m² with the optional 500-sheet paper and heavy media tray, and for higher-quality printing on 4 x 6 inch media with the HP postcard media insert tray. Tray 3 holds standard and custom-size paper and automatically detects common paper sizes.

Configure input trays by paper type to simplify user interaction

Assign a paper type and size to an input tray to prevent accidental printing on special, more expensive media. Simplify assigning paper types by tray further by using the printing shortcuts in the print driver to speed up printing.

Designed for your convenience

The HP Color LaserJet CP3520 Printer series is designed for effortless operation—it is easy to install, use and maintain. Easy-to-use features help simplify your printing experience, while time-saving features and print and supplies management tools let you do more in less time.

Automatic duplexer for two-sided printing¹ lets you save time and conserve paper.

Front door design for easy cartridge replacement.

Accessible paper path door makes clearing jams quick and easy.

HP Color LaserJet CP3525dn Printer shown

Intuitive control panel features easy-to-navigate functionality buttons and a four-line display that provides instant device and supplies information.

HP's proven all-in-one cartridge design Intelligence in the print cartridge ensures easy, reliable operation, and enables automatic print quality adjustments and alerts you when supplies are low.

Preinstalled print cartridges so you can save time and begin printing right out of the box.

Print management tools

Simplify print management and boost productivity with these tools:

HP Universal Print Driver frees you from having to deploy and manage multiple print drivers by substituting a single driver for your HP printing, and gives you easy access to printer features and status reports.

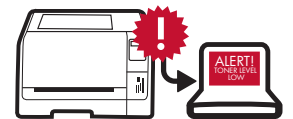

HP Web Jetadmin lets you proactively manage your printing devices—including installation, configuration, diagnostics, maintenance, supplies management, and reporting capabilities—saving IT time and costs.

HP Easy Printer Care Software lets you easily manage up to 20 HP inkjet and LaserJet devices with a one-stop tool.¹

HP SureSupply enables hassle-free supplies management with convenient alerts when supplies run low and easy ordering of supplies.²

HP LaserJet quality and reliability

Backed by renowned HP reliability and support, your business can have total confidence and peace of mind. HP LaserJet devices undergo rigorous testing to ensure consistent print results, page after page.

PC Magazine Readers' Choice Award for service and reliability for 16 straight years
18 September 2007 – HP Printers

Around-the-clock service and support

HP LaserJets are backed with a one-year limited warranty, 24/7 online support, and easy-to-access phone support provided by HP-trained agents. You can also choose to enhance your warranty protection with a wide selection of HP Care Pack Services.

¹ Features vary by model. For details, see "Series at a glance" section.

² In addition to supporting most HP LaserJets, HP Easy Printer Care Software now supports a wide variety of inkjet devices, including HP Officejet Pros, HP Officejets, HP Photosmarts, and HP Deskjets. Please access the compatible printer list at www.hp.com/go/epc for details.

³ HP SureSupply program features and availability may vary by country. Order consolidation available on printers with HP Easy Printer Care Software.

HP Color LaserJet CP3520 Printer series

1. A powerful 515 MHz processor and 384 MB memory, upgradeable to 1 GB
2. EIO expansion slot for optional networking, storage, and connectivity options

Get the best results with Original HP printing supplies and accessories

Designed to work optimally with HP Color LaserJet printers, original HP printing supplies and accessories deliver exceptional print quality, increased print efficiency, and reliable, hassle-free printing.

Experience fewer interventions and print on a range of paper types including glossy, heavy paper with the optional 500-sheet paper and heavy media tray (CE522A).

HP's all-in-one print cartridges with new generation HP ColorSphere toner are specifically designed with the HP Color LaserJet CP3520 Printer series to deliver consistent quality and reliable, trouble-free printing. For high-volume printing, the optional high-capacity black X replacement cartridge (CE250X) offers a cost-effective solution.

Impress your customers with an elegant, professional looking presentation book with the optional HP Professional Presentation Book (Q6291A). The high-quality cover and binding will make your documents look like they are professionally bound.

Print on 4x6-inch postcard media (up to 220 g/m²) in larger quantities with less end-user involvement with the HP Postcard Media Insert Tray (for tray 3) (CC497A).

Choose from a selection of HP papers to create professional-quality documents and marketing collaterals right from your office.

Expandable memory provides the ability to receive and process complex print jobs.

Protect sensitive information without impacting device performance with the HP High-Performance Secure EIO Hard Disk (J8019A).

Advance your business and shrink your environmental footprint with HP

HP makes it easy for you to boost your bottom line while limiting the environmental impact of your business. Reduce costs, save energy, conserve resources and gain efficiencies with the HP Eco Solutions Program. With HP, there's no tradeoff between achieving business performance and meeting environmental goals. HP Eco Solutions Program is better for business, and better for the environment.

SAVE ENERGY

Save power automatically with built-in intelligence

- Instant-on Technology in HP LaserJet uses 50% less energy than traditional fusing and prints faster from low power mode¹.

Lower energy consumption

- The HP Color LaserJet CP3520 Printer series automatically reduces power consumption after a designated period of inactivity.
- With HP WebJetadmin, you can remotely schedule sleep and wake-up modes to conserve power.

ENERGY STAR® qualified

- The HP Color LaserJet CP3520 Printer series meets ENERGY STAR® guidelines for energy efficiency.

Blue Angel certified

- The HP Color LaserJet CP3525dn is also Blue Angel certified.

REDUCE WASTE

HP Smart Web Printing

No more wasteful prints

- With HP's superior colour technologies, create documents with more impact and reduce the need for reprinting.
- Print only what you need with HP in-house marketing solutions.
- Print only the web content you need with HP Smart Web Printing,² available as a free download. Simply select and organise text and graphics from multiple web pages, and edit them for exact prints without cut-off edges.

Save with two-sided printing

- Save money and paper by setting the printer to automatically print on both sides.³

Use of fewer materials

- HP LaserJet toner cartridges⁴ feature a more efficient design, using 10% less materials in the cartridge and packaging, compared to previous designs.
- The compact packaging design allows more efficient shipment and storage, with 77% to 103% more cartridges can be shipped on one pallet⁵

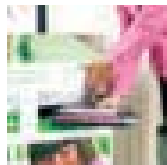

RETURN AND RECYCLE

Less waste through recycling

- All returned Original HP print cartridges go through a multi-phase recycling process where they are reduced to raw materials that are used to make new metal and plastic products.

Simplify the management and disposal of products

- Through HP Planet Partners—a free, convenient return and recycling program available in more than 40 countries—you can be assured cartridges won't end up in a landfill.
- To date, HP has recycled 1 billion cumulative pounds around the world, and we are accelerating our efforts with a goal of doubling our annual recovery rate to reach 2 billion pounds by 2010.

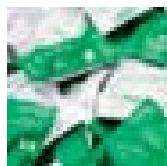

USE RECYCLABLE TECHNOLOGY

Responsible disposal

- 70% to 85% of HP's printing and imaging products are typically recyclable or recoverable. That means it's easier to dispose of them responsibly.

Designed for recycling

- HP printers use common fasteners and snap-in features, avoiding the need for adhesives or welds. This makes it easier to dismantle products and to separate and identify different plastics for easy recycling.

¹ Instant-on Technology uses cutting-edge fuser technology to produce the first page faster when a printer is coming out of PowerSave mode so your print job is done sooner. An InfoTrends study shows the typical office print job is three to five pages long. Time To Completion of a typical office print job tested on HP and select competing products. Actual results may vary.

² Requires Microsoft Internet Explorer 6.0 or higher.

³ Features vary by model. For details, see "Series at a glance" section.

⁴ HP CC530A, CC531A, CC532A & CC533A

⁵ 77% more cartridges on a European style pallet plus corresponding shipping container loads, or 103% more cartridges loaded on each US/ROW pallet.

¹ Exact speed varies depending on system configuration, software application, driver, and document complexity.

² Instant-on Technology uses cutting-edge fuser technology to produce the first page faster when a printer is coming out of low power mode so your print job is done sooner. An InfoTrends study shows the typical office print job is three to five pages long: www.infotrends.com/public/Content/Presentations/officeprinteruse.pdf. Time To Completion of a typical office print job tested on HP and select competing products. Actual results may vary.

³ HP recommends that the number of printed pages per month be within the stated range for optimum device performance, based on factors including supplies replacement intervals and device life over an extended warranty period.

⁴ Duty cycle is defined as the maximum number of pages per month of imaged output. This value provides a comparison of product robustness in relation to other HP LaserJet or HP Color LaserJet devices, and enables appropriate deployment of printers and MFPs.

⁵ Introductory cartridges: average continuous composite cyan/yellow/magenta cartridge yield 3,000 pages and average continuous black cartridge yield 3,000 pages. Replacement cartridges: average continuous composite cyan/yellow/magenta cartridge yield 7,000 standard pages and average continuous black cartridge yield 5,000 standard pages. Declared yield values for replacement cartridges in accordance with ISO/IEC 19798. Actual yields vary considerably based on images printed and other factors. For more information, visit www.hp.com/go/learnaboutsupplies.

⁶ Availability may vary by region.
